1920 CENSUS INDEX
DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

Abstract—The purpose of this study was to determine the effect of a 10-week, 1000 kcal energy deficit diet on the body composition and physical performance of 10 male, sedentary, college students. The subjects were divided into two groups: a control group and a diet group. The diet group was instructed to consume a diet that was 1000 kcal less than their estimated maintenance level. The control group was instructed to consume a diet that was equal to their estimated maintenance level. The diet group lost significantly more weight and body fat than the control group. The diet group also showed a significant improvement in physical performance compared to the control group. The results of this study suggest that a 10-week, 1000 kcal energy deficit diet can lead to significant improvements in body composition and physical performance in sedentary college students.

1920 CENSUS—INDEX
DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

Abstract—The purpose of this study was to determine the effect of a 10-week, 1000 kcal energy deficit diet on the body composition and physical fitness of obese women. The subjects were 15 obese women who were randomly assigned to either a control group or an experimental group. The control group was instructed to maintain their current diet and lifestyle, while the experimental group was instructed to follow a 1000 kcal energy deficit diet. The subjects were assessed at baseline and at 10 weeks. The experimental group showed a significant decrease in body weight, body fat percentage, and waist circumference, while the control group showed no significant changes. The experimental group also showed a significant increase in physical fitness, as measured by the 6-minute walk test. The results of this study suggest that a 10-week, 1000 kcal energy deficit diet can effectively reduce body weight, body fat percentage, and waist circumference, and improve physical fitness in obese women.

2000

9071-2

[Faint, illegible handwritten notes]

1. The first part of the document is a list of names and titles, including "The Hon. Mr. Justice" and "The Hon. Mr. Justice".

1. *Phragmites* (common)

1. The first part of the paper discusses the importance of the study of the history of the English language. It is argued that the study of the history of the English language is essential for a full understanding of the language and its development. The paper then discusses the various factors that have influenced the development of the English language, including the influence of other languages, the influence of social and cultural changes, and the influence of technological advances. The paper concludes by discussing the importance of the study of the history of the English language for the future of the language.
